## Summary

MERN Stack Developer with strong front-end expertise in React.js, JavaScript (ES6+), HTML5, and CSS3. Skilled in building responsive, component-based user interfaces with modern web technologies. Currently expanding backend skills in Node.js, Express.js, and MongoDB to deliver complete full-stack applications. Passionate about learning and applying full-stack development practices in real-world projects.

## Education

**Bachelor of Science in Computer Science**

University of Agriculture Faisalabad

CGPA: 3.62

Sep 2021 - June 2025

## Technical Skill

- **Programming Languages:** JavaScript (ES6), C
- **Frontend:** HTML5, CSS3, Bootstrap, Tailwind CSS, React.js
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, Mongoose
- **Tools:** Git, GitHub, Visual Studio Code, Postman, Chrome DevTools
- **Concepts:** RESTful API development, JWT authentication, CRUD operations, React Hooks

## Experience

**Plomax Tech**

**MERN Stack Development Intern**

February 2025 –May 2025

- Gained hands-on experience in full-stack development using MongoDB, Express.js, React.js, and Node.js.
- Built and styled responsive front-end interfaces with React.js, HTML5, CSS3, and integrated dynamic functionalities using JavaScript (ES6).
- Worked on backend routes using Express.js and created MongoDB schemas for storing and retrieving data.
- Collaborated with the development team on API integration, bug fixing, and implementing new features in ongoing projects.
- Participated in team discussions, code reviews, and agile sprints to improve software delivery practices.

**MERN Stack Developer**

April 2024– Present

**Freelance**

- Developed and deployed full-stack web applications using the MERN stack for client and personal projects.
- Completed projects such as a Trusted Auction System and a Responsive Food Ordering Platform with full CRUD operations, user authentication, and responsive UIs.
- Built reusable React components and managed application state using React Hooks.
- Implemented RESTful APIs with Express.js and structured database models using Mongoose with MongoDB.

## Main projects

**Trusted Auction System**

**Tech Stack: React.js, HTML5, CSS3, Bootstrap**

- Designed and developed a responsive front-end interface for an online auction platform.
- Created interactive pages for product listing, user login/signup, bidding system, and user dashboard using React components.
- Implemented clean UI/UX with Bootstrap and styled components for a seamless user experience.
- Managed application state with React Hooks and ensured modular, maintainable code across components.

**Responsive Food Ordering Website**

**Tech Stack: HTML5, CSS3, JavaScript, React.js, Bootstrap**

- Built a fully responsive and dynamic food ordering interface with reusable components for Home, Menu, About Us, and Checkout pages.
- Implemented product cards with filtering and search features to enhance user interaction.
- Styled the UI using Bootstrap and CSS, ensuring consistent layout across devices.
- Integrated EmailJS for contact form functionality and deployed the project using Vercel.

## Achievements

- Earned Internship Certificate from Plomax Tech (MERN Stack Development Intern).
- Self-learned Mern Stack development via online tutorials and project work.
